

Coding Challenge - Week 12 Day 3

As we have completed the application today, I want you to build a profile page similar to what we have built, but with some styles. Also you should try to fiddle with your account information from youtube like the channels you have subscribed to, your recent liked videos etc.

The details to those data are available here

1. <https://developers.google.com/youtube/v3/docs/channels/list> - List my channel
2. <https://developers.google.com/youtube/v3/docs/subscriptions/list> - List my subscriptions.

Remember, it's always good to learn something new, so go for it without limiting yourself. Just create a new reducer and hold all these inside it, with relevant actions.
